PROFILE SUMMARY

- Possess **nearly 4 years** of experience in developing scalable and efficient web applications with the MERN stack.
- Proficient in both front-end and back-end development, ensuring seamless integration and functionality.
- Proven capability to lead and collaborate with cross-functional teams to drive project success.
- Recognized for exceptional communication and responsiveness, consistently exceeding client expectations.
- Achieved a 20% improvement in database query efficiency through performance reviews and optimizations.
- Enhanced user experience by implementing lazy loading and code splitting, remarkably reducing page load times.
- Established a mentorship program for ongoing team learning and skill development, boosting performance.
- Rich experience with Agile (Scrum) methodologies, contributing to effective sprint planning and execution.
- MERN stack expert with proficiency in MongoDB, Express.js, React.js, and Node.js, along with strong understanding of front-end and back-end development principles.
- Received client appreciation for outstanding dedication and hard work, showcasing a commitment to excellence.

TECHNICAL SKILLS

Languages: JavaScript, Typescript, Python

Front-end: ReactJs, Redux Toolkit HTML CSS, Tailwind CSS, Bootstrap, Material-UI Next.js

Back-end: Node js, Express.js Rest API

Databases: SQL, MongoDb, PostgreSQL

Tools: BitBucket, GitHub, Heroku, VS Code

WORK EXPERIENCE

Vedhas Technologies, Hyderabad

Team Lead - Full Stack Developer | Nov'22 – Jun'24

Key Result Areas:

- Developed a Scorecard module using ReactJS to evaluate risk factors in client funding.
- Modernized a legacy static application into a dynamic, feature-rich platform, enhancing user experience and functionality.
- Led team meetings to review project milestones, address challenges, and foster a collaborative environment.
- Enhanced user experience by implementing lazy loading and code splitting techniques, reducing page load times.
- Established a mentorship program to support ongoing team learning and skill development, boosting overall team performance.

Highlights:

- Earned client praise for outstanding communication, responsiveness, and understanding of client needs.
- Optimized database queries, resulting in a 20% improvement in performance.

SKDIGI Digital Solutions, Hyderabad

Full Stack Developer | Aug'20 – Oct'22

Key Result Areas:

- Contributed to the development of two key projects: the official "SKDIGI" company website and the "Dr. Ram" CRM for hospital functionality.
- Designed and built web pages using React.js and Node.js REST APIs, ensuring a smooth user experience.
- Collaborated in an Agile (Scrum) Team, engaging in sprint planning, reviews, and retrospectives.
- Managed UI code to ensure design and functionality adhered to project requirements and standards.
- Conducted knowledge-sharing sessions to promote continuous learning and skill enhancement within the team.

Highlight:

- Progressed from an Intern to a Full Stack Developer, gained two years of comprehensive experience.
